RILEY WITHDRAWS

Gives His Beasons for Not Continuing in the Bace for Treasurer.

To the Editor of the Intelligencer. SIR:-I desire, through the columns your excellent paper, to say to the name will not be before the state con-vention, for the office of state treasurer. withdrawing from the contest, I wish it understood that I do so with the most kindly feeling toward all con-didates, and that the ticket made will have my hearty support.

Received Much Encouragement.

I received much encouragement and many assurances of support from persons in each of the congressional dis tricts, to whom, and to the several newspapers, making favorable and mentary mention of my candidacy, I tender my grateful acknowlonts. I simply realize what my location does not seem to be favorable. ar this time to success. It now appears certain that Hon. A. B. White will be nominated for governor, and that one of the candidates for judge of the supreme court, will be taken from this district. Nothing too Good for the Fourth.

It is quite true that there is nothing too large or good for the Fourth district, laid off as it was originally, for a very safe Democratic stronghold. "Compact in form." of course, as required by the constitution, no little energy and push has been exhibited by Republicans in completely demoralizing their works and shifting it to the Republican column, several years ago.

Yet we could not, perhaps, reasonably expect more than two places on the state ticket.

Operations in the stock market con tinued to be left largely to professional hands to-day. The movement was oxceedingly irregular and confused all day. Generally speaking it could fairly be said that railroad stocks were firm to strong, while the industrials were weak. This distinction was obvious at the opening of the market and the day's trading tended rather to emphasize ft. except that the demoralizing tendencies in the steel industrials ultimately affected the whole list and dragged back even the strongest of the railroads. There was a brief show of strength after the opening by Federal Steel and Steel & Wire, probably on covering of shorts sold in yesterday's break, but in the late trading these stocks as well as others of the group fell to the lowest in the present movement. The extreme declines ranged all the way from 1 to nearly 6 points, the latter Tennessee Coal. There was no definite news to account for the weakness, but rumars were plentiful that dividends would be reduced or passed and that further deep cuts were pending in the price of the steel companies where stocks are dealt in on the stock exchange. The declaration of a first dividend on the common stock of the National Tube and the re-ports of the reopening of sundry milis had no effect in checking the decline. Among the notable exceptions to the weakness in the industrial department weakness in the industrial department were the group of New York City stocks, including American Ice, Consol-idated Gas led in the rise of five points and the local tractions responded. A meeting of directors of the American Sugar Refining Company caused an unfrom the shorts which easy demand lifted the stock at one time 2% per cent. In the railroad list Burilington con-

in the rainous in tinued in good demand at an extreme advance of 1% per cent in spite of de-nials of the rumored refunding plan. The granger group and Western rail-road stocks were most benefited in sympathy and showed good advances, in spite of reports of declining traffic, both east and west bound. There was said to be large buying for account of an outstanding short interest in that west in the railroad list. The international department was helped by some buying for London account where prices railled on easier money and the encour-

Breadstuffs and Provisions.

CHICAGO—On firm cables, dry weather in the northwest and possibly too much moisture southwest, wheat was firm, though duil to-day, July closing a shade under yesterday. Corn closed weak, July %c down, and oats steady. July a shade lower; provisions closed firm and slightly improved in price.

Wheat opened easy, July %c lower at 68%,656%c. Rains in the #outhwest were the burden of reports, which caused bearish feeling then, as it was figured that the rain would produce a high rate of moriality among the crop damaging chinch bugs. While these reports were still uppermost in the minds of traders—and they had plenty of time to think about it, as trade was very dull—July eased off to 65c. It did not get any lower, however. One Kansas report said that too much rain had fallen, whereat the market steadled and traders recollected that Liverpool cables were also in favor of a better wheat price. Then reports from the morthwest began coming in, complaining because no rain had fallen and objecting to the weather map which offered no relief. July accordingly became more valuable in the eyes of the speculators and advanced to 86½c. On the bulge profit taking formed the ampsement of some and sympathy with the corn weakness had its effect, July easing off. The close was firm, July a shade under yesterday at 65%c. Primary recepts were \$25,000 bushels, compared with \$24,000 bushels is to year, and the sufferer in price on the board. The excellent growing weather reported from nearly every section of the belt was too much for the market and at one time July was one cent under yesterday's closing figures, while the close showed only a slight recovery. Liverpool was decidedly lower, which also bad a depressing effect. Following the opening the market and at one time July was one cent under yesterday's closing figures, while the close showed only a slight recovery in the state would be completed this week. The shipping demand was indifferent. Local receipts were stat farmers deliveries of old corn would soon show marked increase. N

Trade in the cats pit was light, but a good cash demand held the market firm in spite of the corn weakness. Two hundred thousand bushels cash onts. were sold here to-day. Receipts were 274 cars. July sold between 21% cand 22c, closing a shade under yesterday at 21% 22c.

Provisions were quiet but firm, the recenter part of the day with some addirectors.

Metals.

NEW YORK—The market for metals continues generally weak. Trading, however, was not very active as buyers refused to take hold even at the concessions. The ruled rather easier, owing to large receipts and in sympathy with London advices, closing easy at \$25.0025.50. Pig iron warrants were weak and nominally quoted at \$15.00. Northern No. 1 foundry was nominally unchanged at \$21.00622.00, but very weak at that, Lake copper continues dull at \$16.57½. Lead and spelter were unsettled, but not quotably lower, closing dull at \$3.77%,64.02% and \$4.504.55, respectively. The brokers' price for lead was \$3.50, and for copper \$15.75.

Dry Goods.

Dry Goods.

NEW YORK—Good Inquiries in the market again to-day for brown cottons for export to China and fair sales said to have been made, but at comparatively low prices. The demand on home account has run decidedly light again in all descriptions and prices are without quotable change. Print cloths have been inactive and featureless. No sales of any moment being reported. Prints dull. Ginghams quiet. Siks in limited demand and prices irregular.
